

Language

Language makes thought possible when the words disappear so is our ability to think about the ideas that the words represent. They prevent you from saying the obvious, over time it becomes impossible to see the obvious and is exactly of cause why they do it. Those who control your words control your mind.

“When there is no more conversations we all are in danger of destruction”

“Call them out of the churches, so there is room for Jesus”

Battle Of The Bibles

William Tyndale

"Lord, open the king of England's eyes."

Word Said To His Killers:

"If God spares my life, I will take care that a ploughboy shall know more of the Scriptures than you do. "

Tyndale's translation inspired the great translations that followed, including the Great Bible (1539, also compiled by Coverdale), the Geneva Bible (1560), the Bishops' Bible (1568), the Douay-Rheims Bible (1582-1609), and the Authorized or King James Version (1611).

The calling of God upon Tyndale's heart became a burning passion to see commoners read God's unadulterated Word. Unfortunately, most people have never heard of this man and his vast contribution has been greatly undervalued through the centuries.

Further, Tyndale is widely regarded as the father of the English Reformation. What most Reformers accomplished through preaching, Tyndale did by his Bible translation. Though he did preach during his younger years in

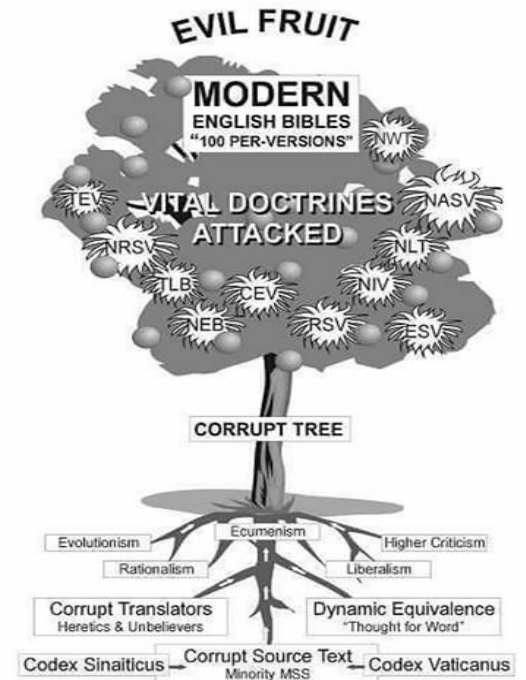

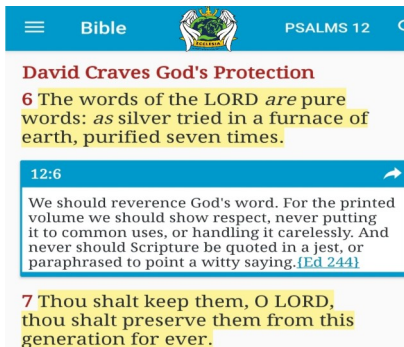

England, in later years his full attention was set upon translating the Bible into the English language. Instead of proclaiming the Scripture, he gave the actual words of the Bible to Englishmen in their native tongue. If the people could read and understand the Word, he believed, God

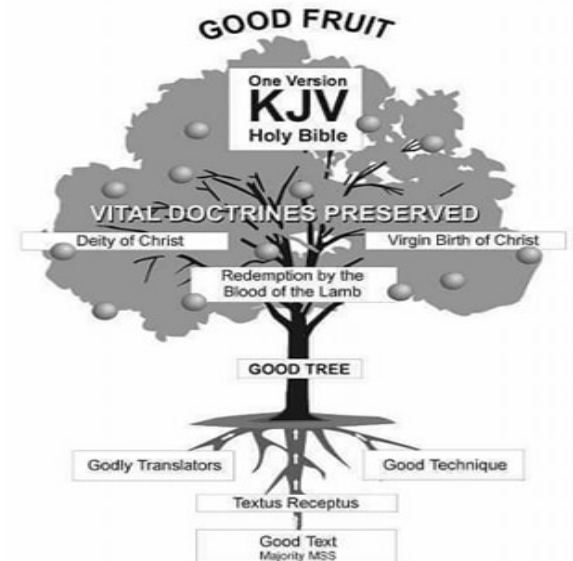

Study your Bible History and its Translation. You will be amazed by what you find.

It was preserved by **BLOOD**

would kindle in their hearts a zeal for the truth. It was to this daring mission that Tyndale set himself, directing all his energies to this God-appointed task for the remainder of his life.

"... a corrupt tree bringeth forth evil fruit."

"... every good tree bringeth forth good fruit."
